

May 2020

DRY ROT

Stay tuned for AGM. Date and time to be announced in upcoming notice.

Since the end of November 2019, Canadian Power and Sail Squadrons has been introducing a new IT system. It is not perfect by all means, yet. Part of that process was to have all members reset their password. As of this notice, 90% of our members have. I think that is fantastic and indicates the commitment to this organization.

Because of the Coronavirus and the closing of MBYC, this course is on hold until further notice

MARITIME RADIO COURSE

VHF MARINE RADIO

Restricted Operator's Certificate (Marine)

A legal requirement of Industry Canada

ALL BOATERS SHOULD KNOW HOW TO PROPERLY USE A VHF RADIO

If you would like to put your name on a class email list and be advised when we are able to reschedule the course send Roger Pimm an email.

rogerpimm70@gmail.com

LET'S TALK TRAINING

Have you ever wanted to teach a course for your squadron but would be too nervous to stand up and instruct in front of students?

Are you comfortable working with computers?

Would you be interested in teaching an online course where you can sit at home in your pj's and help someone through a boating course?

CPS is introducing a number of online courses and need tutors to help students.

The education department will be working with a program called "MOODLE".

I have no idea how it works. If you do or would like to help out, please let me know at 905-389-5719 or ronwarby46@gmail.com

REGALIA SALES

You need a new CPS flag?

Contact Marney Warby @ 905-389-5719

Did you know if you rearrange the letters (anagram) for

The Morse Code

you get

Here Come Dots
